FEATURED IN ECONOMIC TIMES

AR, VR AND NEW-AGE TECH COMPANIES REPORT INCREASE IN DEMAND AS COVID-19 GROUNDS WORKFORCE

Companies like Gurgaon-based Queppelin are now seeing unprecedented demand for VR, augmented reality (AR) and mixed reality (MR) technology from companies in India and abroad. The increased demand has pushed companies to quickly expand their product lines. Queppelin is now coming-up with a virtual meeting platform. Queppelin is helping its clients with remote capability offerings, upgrading their networks and enabling collaborative technologies to ensure productivity. The company has now stepped up the use of Zoom, Google Hangouts and Skype for conferences and meetings with employees.
