Flight Simulation Service

BY QUEPPELIN

Queppelin provides various services for its customers and is developing and broadening its scope simultaneously. As we say, modern situations need advanced services Queppelin's Flight simulator is one of the best-suited examples. We have the experience of developing the best flight simulator in the market. Queppelin provides services to worldwide aviation schools, airlines, training centres, and more. In this lockdown period, we provide cost-effective VR flight simulators for uncompromised training of your trainee pilots. We use the best software and techniques for developing different types of terrains such as windy, stormy, turbulence, and more, with the help of Virtual reality simulations, which makes the immersive scenarios more realistic and unique.

The Coming of Reliance Jio Glass

Reliance Industries Limited (RIL) during its 43rd Annual General Meeting (AGM) showcased a new Mixed Reality solution, called Jio Glass. At the event, the company did not reveal the pricing and the availability details about the product. However, they did showcase a demo as to how the Jio Glass will work when it is made available to the public.

RIL has stated that the new Jio Glass is designed for teachers and students to enable 3D virtual rooms and conduct holographic classes via the Jio Mixed Reality service in real-time. Apart from this, they can also be used to perform virtual meetings.During the demo, Kiran Thomas, President RIL said, "Hello Jio, please call Aakash and Isha." After which the Jio Glass made a call to Aakash and Isha Ambani. Aakash was shown as a 3D avatar, whereas, Isha joined in using a 2D video call interface. During the call, it was shown how Jio Glass will make performing meetings easy and interactive.

"Jio Glass is at the cutting edge of technology that provides best-in-class Mixed Reality services to give users a truly meaningful immersive experience."

"

Jio Glass is Coming Soon! and shows a glimpse of what is very possible to happen in the future.
